animal caretakers!

- 50% fresh insects
- Herbs & spices
- Replacement for live insects
- Soft, moist pellet
- All natural ingredients
- Balanced mix of vitamins & minerals

Feeding advice

TERRABITES 'Insectivorous Lizards' petfood is the optimal basis for the diet of bearded dragons and related species. Young animals can be fed a small portion on a daily basis, whilst older animals should be fed 3 to 4 times a week. Use the amount of feed your animal is usually able to eat in one day as a portion guideline. Remove any uneaten feed from the enclosure after one day. It is recommended to supplement your animal's diet with other feed sources, such as vegetables. As **TERRABITES** contains all essential vitamins and minerals, the use of supplements is not necessary. Due to the high moisture content of **TERRABITES**, the drinking water requirement for your animal is partially replaced.

Storage advice

To keep your **TERRABITES** product in optimum condition, store at room temperature (<20 °C) and out of direct sunlight. Refrigerated storage is not necessary. To prevent dehydration, the **TERRABITES** container should be properly closed after each use.

Ingredients

Insects (50%; mealworms, lesser mealworms), bakery products (wheat gluten, rice flour, wheat flour), herbs (10%; turmeric, star anis, garlic, cardamom), vitamins & minerals, plant-based protein extracts (soy protein concentrate), plant-based by-products (gum, potato starch), brewer's yeast, oils and fats (sunflower oil, lecithin), fruits (cranberries), sugar.
